¹ These statistics were provided by the Facilitator.

² These statistics are as of January 2, 2002.

³ These statistics are as of December 31, 2002.

⁴ These statistics are as of January 5, 2004.

⁵ These statistics are as of December 31, 2004.

⁶ These statistics are as of December 31, 2005.

⁷ These statistics are as of December 31, 2006.

⁸ The decrease in the number of Track B claims is a result of claimants converting their claims, with the consent of the Government, to Track A.

⁹ The decrease in denials is a result of decisions being overturned on reexamination.

¹⁰ This figure includes cash relief awards in Track A credit cases only. It does not include debt relief, tax relief, awards for non-credit claims, or awards or settlements in Track B cases.

¹¹ The cumulative dollars reported by the Facilitator for non-credit payments decreased from the amount reported as of the end of 2003 due to the Facilitator's reconciling of payment data from USDA for non-credit claims.

¹² The cumulative dollars reported by the Facilitator for non-credit payments decreased from the amount reported as of the end of 2005 due to the Facilitator's internal reconciliation of paid non-credit claims for certain claimants who prevailed on both credit and non-credit claims.
