Civil Action No. 18-2065 (JDB)

APPENDIX

This appendix includes the prejudgment interest multipliers calculated by the Court for the associated plaintiffs and a table specifying each plaintiffs' award before and after the addition of prejudgment interest.

As it did previously in Cabrera v. Islamic Republic of Iran, Civ. A. No. 18-2065 (JDB), 2022 WL 2817730 (D.D.C. July 19, 2022), the Court will use the Federal Reserve's data for the average annual prime rate in each year from the date of the respective attacks through 2023.¹ Using

¹ This data is available on the Federal Reserve's website. Bd. of Governors of Fed. Reserve Sys., Data Download Program, <https://www.federalreserve.gov/datadownload/Download.aspx?rel=H15&series=8193c94824192497563a23e3787878ec&filetype=sheet&label=include&layout=seriescolumn&lastObs=50> (last accessed May 9, 2023).

the prime rates for the years from the date of the attack, and discounting for the percentage of the year elapsed at the time of each attack, yields the following multipliers:²

Associated Direct Victims	Attack Date	Multiplier
Benton, Bogar, Brostrom, Garcia, Hovater, Rainey, Zwilling	July 13, 2008	1.736093
Roush	August 16, 2009	1.662423
Caron	April 11, 2010	1.628083
Benson, Campbell, Nichols, Pittman, Ratzlaff, Robinson, Spehar, Strange, Vaughn, Vickers	August 6, 2011	1.560786
Darrough, Newman	October 29, 2011	1.549263
Hunter	May 31, 2012	1.520481
Ellis	June 18, 2013	1.470380
Zimmerman	July 15, 2013	1.466906
Baldrige, Bays	June 10, 2017	1.286767

Applying those multipliers, the Court concludes that plaintiffs are entitled to the following amounts as compensatory damages (solatium or pain-and-suffering damages, plus prejudgment interest):

Plaintiff	Pain and Suffering or Solatium Damages	Compensatory Damages Plus Prejudgment Interest
Jonathan Richard Colton Benton	\$8,000,000	\$13,888,747.50
Elizabeth Lindsey Benton	\$4,000,000	\$6,944,373.75
S.J.B.	\$2,500,000	\$4,340,233.59
G.S.B.	\$2,500,000	\$4,340,233.59
H.S.B.	\$2,500,000	\$4,340,233.59
Carlene Renee Cross	\$5,000,000	\$8,680,467.19
Michael Dean Bogar	\$5,000,000	\$8,680,467.19

² Specifically, the Court calculated these multipliers—using SSG Benton as an example—as follows. First, the Court multiplied \$1.00 by the prime rate in 2008 (5.09%); discounted that amount to reflect that only 46.72% of the year remained after July 13, 2008; and added that amount to \$1.00, for a result of \$1.02378. The Court then took that amount and multiplied it by the prime rate in 2009 (3.25%) and combined that amount with \$1.02378, for a result of \$1.057054. The Court continued this iterative process through May 16, 2023, resulting in a total multiplier of 1.736093. Because the attacks relevant to the associated plaintiffs were committed on ten different dates, the Court repeated this process for each attack date. To approximate the 2023 prime rate, the Court averaged the prime rates for the past six years—approximately 4.32%—and again discounted the interest to reflect that only a portion of the year has elapsed as of May 16, 2023. See Cabrera, 2022 WL 2817730, at *55 n.46 (applying same methodology).
